UMass Grape Notes ~ July 11, 2013

Good Day,

It is not too late to register for the upcoming twilight meeting on **July 18th** at Cold Spring Orchard from 5:00 – 8:00

UMass Extension

CENTER FOR AGRICULTURE

PM.

The evening talk will be focused on sprayer calibration presented by George Hamilton from UNH Extension. We will also tour the UMass Cold Climate Grape Trial and discuss Spotted Wing Drosophila management in Grapes.

Pesticide Recertification Credit has been requested for attendance at this meeting.

Come and share an evening of camaraderie and education with your fellow winery and vineyard professionals. A light dinner will be served.

Visit the link below to register:
