

# Revision to Potato Fungicide Table

Darcy Telenko, CCE Cornell Vegetable Program

Please be advised that the table entitled “Fungicides labeled for use in POTATO for early and late blight disease management, 2017” found in the July 12, 2017 issue of VegEdge, Volume 13, Issue 14, page 5, contained incorrect pre-harvest intervals (PHI) for a number of the products listed. To the right is a corrected version of the potato fungicides. The fungicides with incorrect information are in RED lettering. Please note that the “Fungicides labeled for use in TOMATO for early and late blight disease management, 2017” found on the same page were correct.

Remember that you as the applicator are always responsible for reading the label and recording the information from the label. These tables are only meant to be a guide for quick reference. Please be sure to review all labels of the pesticides you apply prior to using. ●

Fungicides labeled for use in POTATO for early and late blight disease management, 2017, revised August 2017.					
Name	Diseases	FRAC Group	REI	PHI	Rate/A
Curzate 60 DF	Late blight	27	12 h	14 d	3.2-5 oz
Forum	Late blight	40	12 h	4 d	6.0 fl oz
Omega	Late blight	29	12 h	14 d	5.5 fl oz
ProPhyt or OLP	Late blight	33	4 h	0 d	4 pt
Ranman 400 SC	Late blight	21	12 h	7 d	2.1-2.75 fl oz
Ridomil Gold Bravo SC	Late blight	4	48 h	14 d	2.5 pt
Zampro	Late blight	45 + 40	12 h	4 d	14 fl oz
Zing!	Late blight	22 + M3	12 h	7 d	36 fl oz
Ariston	Late blight, early blight	27 + M3	12 h	14 d	1.9-3.0 pt
Cabrio Plus	Late blight, early blight	11 + M3	24 h	3 d	2.9 lb
Catamaran	Late blight, early blight	M5 + 33	12 h	7 d	5-7 pt
Gavel 75 DF	Late blight, early blight	22 + M3	48 h	3 d	1.5-2 lb
Gem	Late blight, early blight	11	12 h	7 d	3.8 fl oz
Headline SC	Late blight, early blight	11	12 h	3 d	6-12 fl oz
Previcur Flex	Late blight, early blight	28	12 h	14 d	0.7-1.5 pt
Quadris Opti	Late blight, early blight	11 + M5	12 h	14 d	1.6 pt
Reason 500 SC	Late blight, early blight	11	12 h	14 d	4.0- 8.2 fl oz
Revus Top	Late blight, early blight	40 + 3	12 h	14 d	5.5-7 fl oz
Super Tin 80 WP or OLP	Late blight, early blight	30	48 h	7 d	1.87 oz
Tanos 50 DF	Late blight, late blight	11 +27	12 h	14 d	6-8 oz
Bravo Weather Stik or OLP	Late blight, early blight	M5	12 h	7 d	1 3/8 – 2 3/4 pt
Champ or OLP	Late blight, early blight	M1	48 h	0 d	1.3 pt
Elixir	Late blight, early blight	M5 + M3	24 h	7 d	1.2-2 lb
ManKocide	Late blight, early blight	M3 + M1	48 h	3 d	1-3 lb
Polyram	Late blight, early blight	M3	24 h	3 d	2 lb
Dithane DF Rainshield	Late blight, early blight	M3	24 h	3 d	1.5 lb
Endura 70 WDG	Early blight	7	12 h	10 d	2.5-3.5 oz
Quash	Early blight	3	12 h	1 d	2.5-4.0 oz
Polyram 80 DF	Early blight	M3	24 h	3 d	2.5-4.0 oz
Priaxor	Early blight	7 + 11	12 h	7 d	4-8 fl oz
